**FOR IMMEDIATE RELEASE**

**September 26, 2011**

**APPI Energy Endows Office at Salisbury University**

Salisbury University celebrated the grand opening of the new, three story, \$55 million, state of the art Perdue Hall. The building will house the Franklin P. Perdue School of Business and offers classrooms, labs, study rooms, offices and 200-seat auditorium.

To strengthen its involvement with the local business community, the building features the Business Outreach Services Suite (BOSS). APPI Energy participated in the new building by endowing an office.

“We are pleased to see continued growth in the Salisbury University campus. APPI Energy is proud of its relationship with the SU leadership, professors, and most importantly, the students. Almost thirty percent of our team holds degrees from Salisbury,” states Walter Moore, President and CEO of APPI Energy. “It’s incumbent upon the local community to support this excellent institution.”

The university is pursuing LEED Gold Certification for this building.

***About Salisbury University***

Salisbury University, a member of the University System of Maryland, is a regionally accredited four-year comprehensive institution offering 56 distinct graduate and undergraduate programs. Located on the historic Eastern Shore, SU’s beautiful campus is some 30 miles from the Atlantic beaches and 2.5 hours from Baltimore and Washington, D.C. For more information, visit [www.salisbury.edu](http://www.salisbury.edu).

***About APPI Energy***

Affiliated Power Purchasers International, LLC (APPI Energy), is an independent energy consulting firm that provides commercial and industrial clients the energy market insight, transactional expertise and real-time price discovery needed to make prudent business decisions regarding electricity procurement, natural gas management, and demand-side cost reduction solutions.
